Project Title: SINGH TRAVELS

Date: 27-11-2025

Student Name: CHANDAN SINGH

Roll No.: 20

Section: A

Submitted To: KARANDEEP SIR

1. Introduction

The Website SINGH TRAVELS is designed for Travel and stay.

2. Objective

The main goal of this website is to provide for better travel with affordable price And to provide comfortable stay as well.

3. Tools and Technologies Used

1. HTML5
2. CSS3
3. Font awesome(For icons)
4. Local images
5.VS Code
6. External travel websites(Booking.com)

4. Description of the Website

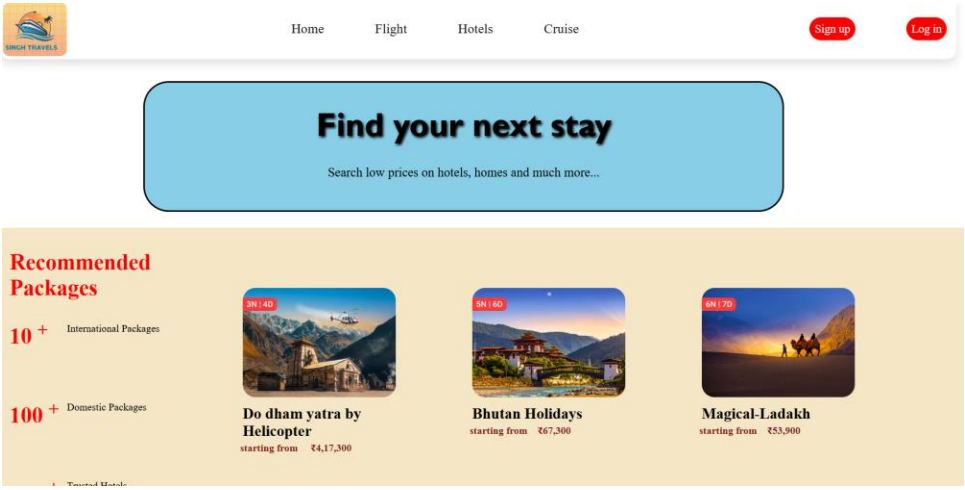
My website contains Header section , hero section, package section ,trending Indian and Internal destination and footer section.

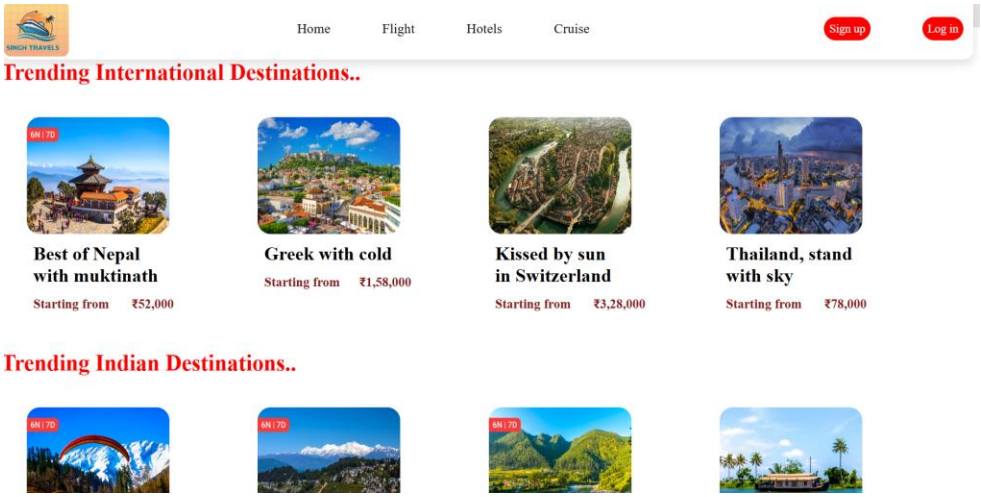
5. Features of the Website

- Fixed navigation bar , hero section
- Recommended package highlights
- Trending international & Indian destinations
- Service information cards
- Image hover effects

- Modern transitions & animations
- Social media pages
- Newsletter subscription
- Professional footer

6. Output / Screenshots





These are some photos of my websites (header , hero and main section).

7. Conclusion

From this project, I learned how to structure webpages using HTML, modern CSS (Flexbox, Grid, hover animations), I used external websites like Font Awesome,This project gave me more confidence about my web development skills. The project strengthened my web development and a little design skills.

8. Future Enhancements (Optional)

This project that I made may have some mistakes or some unprofessional things ,In future I would like to add more pages and the main thing JAVASCRIPT.

9. References

1. I visited Some travel website to see their structure so I can adopt them.
2. Made my logo from a popular website canva.
3. Used font awesome to use icons of (facebook, Instagram etc..)
4. Used a color website to choose colors for my websites.
